# DETAILED INFORMATION

---

## 10'5" Williams Turbojet 325 Tender

---

This Williams 325T has a Weber gas engine and is capable of speeds well over 40 knots. It will cope with a skier or wake board as well as any other tow-able device. Only used as a tender to a larger boat and in good condition. Upholstery in top shape and recent overhaul includes an engine rebuild, all invoices (\$4000) available, one year warranty on engine work from number one Weber engineers Perry Performance Group.

## Manufacturer Provided Description

---

The Turbojet 325 will rocket from standstill to 20 knots in four seconds flat and won't stop until the far side of 40 knots. In common with the entire Turbojet range, such performance is made possible by the torquey 98hp Weber engine driving through a high performance pump system. The Turbojet 325's spacious layout can accommodate four adults and one child in comfort, with luggage stowed in the forward locker and under the central seat. Her hull length promotes excellent low speed planing ability, giving a supremely stable platform for safe embarking/disembarking. As with all Turbojets the fuel economy is impressive, giving extended use between refuelling for true coastal cruising capability. A qualified choice for the discerning yacht owner.

## Standard Fitted Features

---
