## Overview

---

The latest yacht in the Flyingsport family stands out for its sleek and slender lines, and embodies all the winning features of the line: a skillful combination of comfort of a flying bridge with the sporty character and speed of large open yachts, and a flawless blend of refined style and impressive performance. The updates on board are numerous in addition to the full optional included:

- Electrical system fitted for US standard
- New launching system for tender
- New stern hatch
- Higher volumes in the VIP cabin and in the kitchen
- Captain's cabin on the main deck
- Fully redesigned wheel-house
- Adoption of lithium batteries allows to save 1.3 tons

The yacht's contemporary interior design juxtapose dark wood and opaque lacquered surfaces and marbles blend together beautifully with design furniture and accessories; resulting in an extremely stylish and sophisticated atmosphere. Worth mentioning is also the full-grain aniline finished leather with ton-sur-ton stitching, extensively used across the entire vessel.

On the main deck, the focal point of on-board space is the fore back-lit wall, with bamboo lath-work alternating with serigraph glass and mirroring surfaces: it was conceived to create a special visual effect that 'extends the view' while also highlighting the overall space balance without reducing the size of the salon, which is very spacious indeed. In the middle stands a large sofa lined with a light-shade fabric, ideal for on-board conviviality.

Aft deck access to the cockpit is gained through a leather-lined entrance, which also perfectly frames the view from the cockpit into the salon. Great care has been devoted to the lighting system, which features light beams and design lamps. The modern helm station is also found on this deck, characterized by a new design with the instrument panel lined in leather with double stitched flat fell seams. Behind it, the captain's cabin can provides ease of access to the helm station for improved safety and security.

The entire lower deck has been used for accommodation, with the master cabin and 3

guest cabins having the same stylistic features found throughout the yacht, The crew area, with separate access from the stern, includes a dinette/galley and a laundry area, while the 3 berths for the crew members are located forward.
