## Remarks

---

WATER COLORS is a nice example of the Hatteras 48/52 series. The 52' Cockpit

version was the most popular allowing easy access to the water, fun fishing and easy boarding.

WATER COLORS is special in that during 2015/2016 she was substantially updated, including a new Northern Lights 20 KW generator, bottom stripped and barrier coated, engines rebuilt, etc. With those updates, the Naiad stabilized example of the popular model stands out from the crowd.

---

## Exclusions

---
