Dinghy, Davit, Generator, Inverter, A/C & More!

“Blue Streak” is very well maintained inside and out. Twin diesel Volvo IPS-600 power delivers fuel efficient operation and top speeds of over 30 knots! Docking maneuvers are made easy by (3) Joystick Controls: lower helm, aft deck, and fly bridge. The Island Pilot 435 offers a spacious single stateroom layout with a satin finished teak interior and Ultraleather upholstery. The salon is bright and open. The lower helm area has excellent helm and mate seats as well as port & starboard sliding doors to wide side decks. The electronics are duplicated on the fly bridge which is also equipped with a dingy and davit. The galley and dinette are very comfortable. The master stateroom forward has an island berth and the head has a separate shower. The wide side decks and high railings make it safe and easy to get around the boat. There is a huge storage area under the salon and excellent engine access under three large cockpit hatches. The extended fly bridge provides a hard top for the aft deck.

“Blue Streak” has been very well maintained since new by both of her owners. Her original owner stored her indoors in the summer and the current owner keeps her on a lift behind his home. He has her waxed twice a year and washed twice a month. It runs perfectly, easily reaches rated RPM, and runs cool due to proper maintenance of the cooling system.
