## Overview

---

**\$ 76,000. Price reduction**

**Owner has found their next yacht Traditional buyers will enjoy the less expensive / reliable shaft drives Heat Exchangers fully serviced**

**Manufacturer Provided Description:** The introduction of this dramatically styled and feature-packed Targa is another fine example of how intently Fairline listens to their owners and how skillfully they interpret their 'wish lists' to deliver the boat they ultimately want. The 50 Targa is the evolution of the hugely successful Targa concept, embodying all the many advances and strikingly practical design elements that have won this sports cruiser line-up so many friends- and awards - over the years. Apart from her stunning look and stylish lines, perhaps the most immediately striking feature of this design will be the light, airy atmosphere created by the use of panoramic windows and extended glazing throughout the boat. The feeling starts in the saloon where, even with its cleverly engineered sliding roof closed, the massive windscreen, long, deep side windows and flush glass entrance door help create a welcoming, light-filled space for relaxed living and entertaining. This ability to have your living space fully open or fully closed is one of the delights of the Targa GT concept. It's the same illuminating story below, where the central foredeck and panoramic hull windows flood the spacious accommodation with light. Equally luxurious as the master are the two twin guest cabins, both of which can be swiftly converted to provide double beds. As you might expect from Fairline, the design brief for this fabulous boat included "maximum luxury and convenience for owners and guests" - which, in summary, means sumptuous accommodations for 6 people, a comprehensively equipped galley at saloon level and a fabulous cockpit with masses of space for entertaining, sunbathing and relaxing. The extra-large, safe bathing platform has twin access points. The Targa GRAN TURISMO concept has already proved to be a winner with discerning owners the world over.

## Comments

---

“Historically speaking, the Brits have always enjoyed some measure of dominance at sea, from the Battle of Vigo Bay to the sinking of the Bismarck. Perhaps it was with this tradition in mind that England’s own Fairline Boats created the Targa 50 GT, a build that looks to please discerning owners and impress visiting guests with a vigor worthy of her pedigree. Most important to this yacht’s entertainment acumen is her saloon. Airy is a term often used to describe interior spaces onboard boats, however in this case the description is no metaphor. The 50’s saloon has an electrically actuated sliding roof and optional sliding panoramic windows, which can transform the area into a quasi-outdoor deck that’s perfect for a Pimm’s Cup at cocktail hour.” KEVIN KOENIG JUN 1, 2012 POWER & MOTORYACHT Jack Newington founded Fairline Yachts in 1967. Located in Oundle, England, Fairline has built over 13,000 boats and is highly regarded for British craftsmanship and a passion for detail. Fairline’s most popular yachts are the Targa and the Squadron. Fairline’s Yacht Division stays up-to-date with design trends, advanced construction, and engineering techniques.
