SPECIFICATIONS

Overview

The superstructure shape on the Belize is also somewhat less bluff than traditional predecessors. The coach roof is angled just enough to shed headwinds and shrug off spray, but upright enough to provide good volume in passenger spaces.

Note too the way the roofline swoops down, ever so gradually, almost to mid-cockpit.

Elsewhere, visual cues recall art deco influenced boats of the 20's and 30's (when they were referred to as 'gentlemen's launches').

You can sense this style in the round port lights; the triangle of circular deck hatches up forward; the chunky, sculpted communications mast, that can be painted to key with the distinctive selection of hull colours; as well as the sleek, fluted gills of the engine air intakes that visually continue the taper of the side windows.

At the rear of the deckhouse there's another clever feature: the rear, toughened-glass openable bulkhead is curved outward, top to bottom.

The effect of this, from the inside looking out, is that of an even more roomy and glowing saloon.

The Belize delivers greater space— in the sizing of beds, heads, showers, in fact all living areas— than similar-sized production counterparts.

It's a testimony to very experienced thinking, artful computer-aided design and stronger, less bulky miracle materials.

Basic Information

Category: Motor Yacht

Model Year: 2015

Year Built: 2014

Country: United States

Dimensions

LOA: 54' 2" (16.51m)

Beam: 16' 6" (5.03m)
