Displacement: 4000 Pounds

Water Capacity: 20 Gallons

Holding Tank: 4 Gallons

Fuel Capacity: 102 Gallons

Hull and Deck Information

Hull Material: Fiberglass

DETAILED INFORMATION

Overview

Powered by the Mercury 300HP Supercharged Verado with only 50 hours, she is super quiet at idle and snaps up on top of the water when needed. Some of the great standard features of the boat is a large 30 gallon pressurized livewell aft, a 5-gallon bucket compartment for your cast net, a 90-qt insulated cooler integrated into the step and LED lights throughout the gunwales and T-Top.

Additionally, the owner installed several upgrades: Twin Simrad NSS12 with 3D Structure Scan transducer, Simrad Closed-Array Radar, Simrad VHF, a man-overboard safety device with 2 wrist watches and 2 pet collars, underwater LED lights, canvas console cover, bow table with filler cushion and a dual axle aluminum trailer.

Perfect for fishing the Tampa Bay waters or cruising out to watch a beautiful sunset.

One of the original owners of Sea Pro Jimmy Hancock, along with lifelong friend and former Tidewater Boats founder Preston Wrenn, have brought about the resurrection of a legend in the mid-tier center console salt water fishing boat market. The Next Wave is a reincarnation of the Sea Pro brand that promises to deliver the same unparalleled value and industry leading standard features that drove the massive success of the original. The line is built with South Carolina pride in Whitmire, SC.

Boat is located in St Petersburg, FL.
