SPECIFICATIONS

Overview

Flying Circus is in excellent condition and is designed for comfort, safety and speed. There is plenty of room for your gear, and the berths sleep eight. Flying Circus is very stable and sails flat and fast. Designed to cope with the rugged and variable conditions of Australia's coastline, the Seawind 1000 is widely considered a great ocean going yacht due to design features such as flared hulls for additional buoyancy, triple point reefed mainsail to easily de-power, and foam core construction for additional strength, just to name a few. However the Seawind 1000 is also one of the best designs for entertaining guests or taking the family sailing as a result of the uniquely designed cockpit and saloon.

Please note that the length overall is actually 39' due to custom stern extensions that were added to the boat and the bow sprit for the screacher. The length at the waterline is 36'.
