ХАРАКТЕРИСТИКИ

Обзор

A nice example of this very hard to find 40' Endeavour Trawler Cat... This is a LOADED boat with all the bells and whistles. In addition to the VERY EXTENSIVE list of standard equipment she is loaded with many tens of thousands of dollars of factory options. This cat has an expansive open fly bridge with the helm area protected with a removable isinglass windshield. In addition it has a completely enclosed lower helm station that is kept comfortable with air and heat that has excellent visibility. The lower helm is just a few steps away from the galley and salon, and offers seating for others. Options include: (4) 110-WATT Solar panels with regulator and remote display - 11' Fiberglass dinghy with back seat cushions, Bimini and 30 HP Yamaha, two stroke engines with remote controls, steering wheel and lifting bridle - digital cell phone booster w/antenna - transom rack & 12-volt davits w/propane grill and cooler. - 6KW Northern Lights diesel generator with 3,463 hours - washer/dryer combo - central vacuum system - 20" flat panel TV with DVD/VCR combo player with amplified external antenna - and cable/phone plug and dual 900 Racor fuel filters on both engines. Buff and wax of top sides and hulls completed April 2018 An excerpt from a July 2012 article on the 40 Endeavour in PassageMaker written by Bill Parlatore explains this unique layout best: The newest Endeavour is the company's first pilothouse cat, and it's hard not to like the boat after you've been aboard. Walking up to the boat gives an unusual impression, perhaps, as the boxy profile of the cat is a bit unconventional. The consummate engineer, Bob Vincent builds a boat that fits real people, and this power cat is a stellar example of form following function. Style-conscious catamaran designers may spend a lot of time focused on getting the right look, but Vincent is focused primarily on building a good boat. The Endeavour 40 is best viewed for its superb utility. This new 40-footer is all about cruising comfort, solid engineering, and liveaboard ease of use.
