SPECIFICATIONS

Overview

The ICE YACHTS shipyard presents in the market the new ICE 52, a fast cruiser dedicated to passionate and competent owners that seek enjoyment and strong emotions at the helm. Built with highly innovative materials and advanced construction techniques the ICE 52 is in a league of its own in terms of performance, comfort on board and ability to take on even the toughest conditions at sea. Excellent for demanding cruises and regattas.

The design is inspired by the yacht's smaller sibling, the ICE 33 - a killer regatta boat, from which it takes the "scimitar-like" design of the bow and "smiling" carving shape of the stern. The project was realised by Felci Yacht Design and the production is done in the historic site of Yacht 2000, a construction yard with over thirty years of experience and which has completed more than 80 prestigious maxi-yachts.

The hydrodynamics are nothing less than impressive. The water lines allow the ICE 52 to glide at very high speeds due to its max beam of 4.65m and the carefully studied appendages also grant the yacht great upwind capabilities. The ICE 52 shows no problem in taking on wind coming from extremely narrow angles.

Guaranteeing this level of performance are the advanced technologies used in the construction process and the elevated skill of the artisans who have great experience and expertise in their field.

Basic Information

Category: Sloop

Model Year: 2018

Year Built: 2018

Country: Italy

Dimensions
