SPECIFICATIONS

Overview

The 30 Chaparral Signature was in production for 5 years. It has a fabulous cockpit arrangement and a very comfortable interior for all your family needs. This family express cruiser is built upon a solid fiberglass bottom, with a moderate beam, and an upgrade integral swim platform. She cruises very comfortable in varying sea conditions due to her modified-V hull with 20 degrees of deadrise and weighs in at 9,800 pounds. The interior is very upscale compared to other boats in this class. She has a very roomy aft cabin that I would consider the master. The galley is equipped with all the basics you need for a weekend getaway and a dinette that convert to a berth for two additional guests. The bow stateroom features a very roomy offset berth that also sleeps two. The cockpit has a U-Shaped settee that converts to a large sun pad. With the double helm seat, companion seat and settee, six of your guests can sit with ease. The engines are easily accessible. This Chaparral 30 has been a northern boat except for the last 5 years and is now kept in a covered rack. The bow access is through the windshield which helps open up the interior of the boat and utilize the 10'3" beam. She is equipped with the 4.3 liter economical V6 motors and a gen set, she will cruise comfortably in the mid 20's.
