SPECIFICATIONS

Overview

The Hysucat design used in its 30CC offer the best features of a monohull and catamaran combined. While the boat behaves very much like a monohull, the distinctive hydrofoil technology allows the boat to turn on air cushions caused by air tunnels and to rise out of the water at high speeds. When the boat rises the wetted area of the hull is reduced which in turn creates more speed at greater efficiency.

Options include:

Twin Suzuki 200hp motors with under 70hrs

Starboard and Port seating arrangement with High Table and Storage Under

Teleflex Power Steering W/ Stainless Steel Wheel

Integrated Battery Charger System

Electric Marine Head
