## Overview

---

The 322 Motor Yacht expanded on Silverton's signature "Side-Walk" design—a full-beam salon configuration with twin ascending staircases instead of side decks. This was a new concept in small motor yacht design, one that produced greater interior volume than many thought possible in a boat this size. Indeed, with two double staterooms, two heads, full-service galley, and a spacious, full-beam salon with convertible settee and dinette the Silverton 322 is probably the most spacious 32-footer ever built.

In addition to her vast interior, the 322 features a roomy flybridge as well as a small aft deck with wet bar and hardtop. Foredeck access from the flybridge is excellent with wide, molded steps and sturdy rails, and a curved staircase provides easy boarding from the swim platform. A huge sales success for Silverton. Built on a modified-V hull with a wide 12-foot, 4-inch beam, twin 300 hp MerCruiser gas engines cruise at 15–16 knots (mid 20s top).

This vessel has been in possession of its current owner for 2 years. He has put approximately 70 hours on the engines. New bottom paint, zincs, prop shaft seals and engine service completed on 4/26/2018.
