- New Bottom Paint
- All Metal Treated and Waxed (**May 2018**)

Broker Remarks

Killbox, built as the Grandslam, is a 50 foot sportfish that took the East Coast tournament world for a spin. The builder, Irving Forbes of North Carolina, built the vessel with his eyes on domination. Forbes teamed up with the designer Steve Matthews to compose an unmistakable swept sheer line and curvaceous house. The profile proportions are a smooth cocktail of class and seduction. But don't let her pretty looks fool you, because they were only one of many concentrations during the build. The main focus was simplicity - the name of the game when you want to fish countless days of the year. The large engine room mirrors same concept of size as the cockpit and bridge. All exposed elements are easy to clean with faired and painted surfaces. However, it's no slouch when it comes to bells and whistles. Killbox includes a Seakeeper, Garmin Electronics, and 20 horse power hydraulic bow thruster. She will

easily sleep four, with two oversized bunks and a forward stateroom. The salon houses a center island as a centerpiece and two large couches port and starboard, a perfect place for a morning briefing, or to get out of the sun. From fishing to fun the Killbox does it all. Want to become a tournament contender? The Killbox is a proven contender winning the Custom Shootout, and the Pelican two years in a row! Not to mention many other spots on the leaderboard. In all, the Killbox is one of the most economical, fish catching, sportfish boats on the water. **OWNER WILL CONSIDER LARGE CENTER CONSOLE TRADES!**

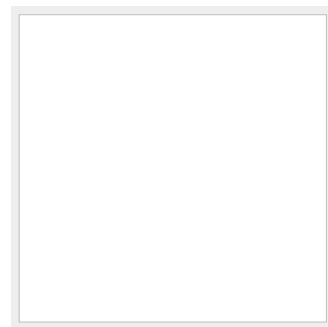

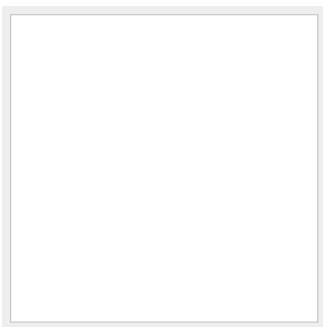

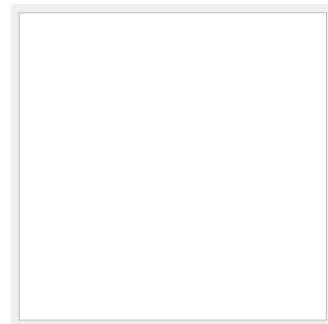

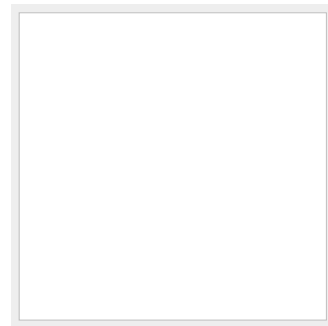

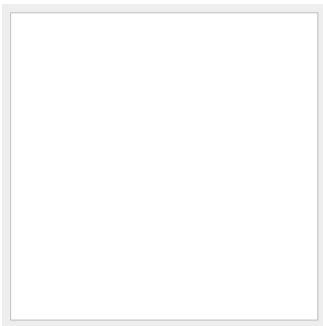

Exclusions

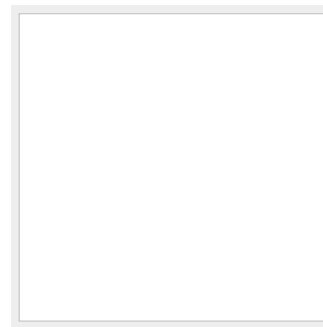

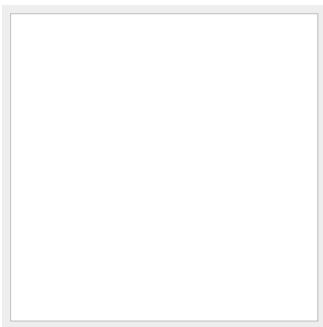

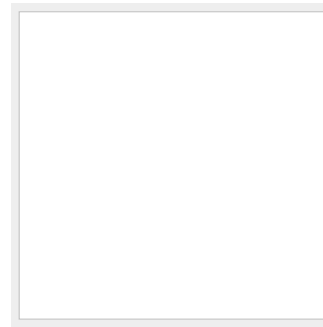

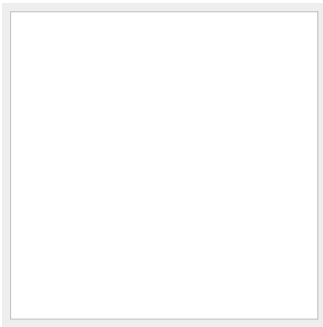

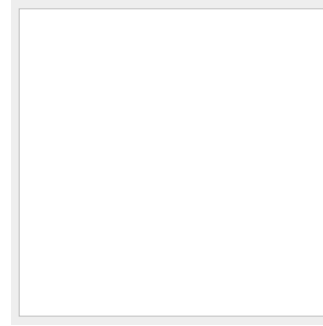

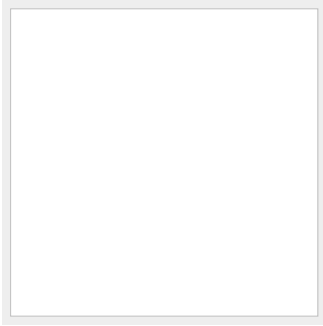

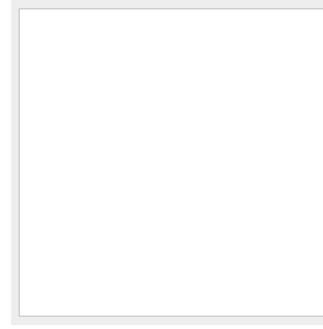

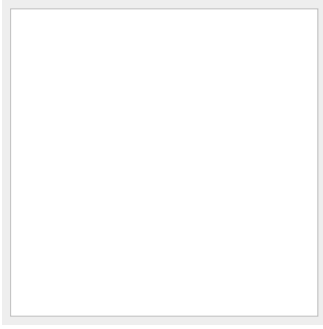

Owner's personal belongings.
