SPECIFICATIONS

Overview

Just Reduced to \$869,000

New EZ2CY Enclosure with Sliding Side Windows

Perfect Caribbean Cruiser, Twin C15 Caterpillars with under 200hrs, 21kW C2.2 Generator only 210hrs, Bow and Stern Thruster, Twin AC Chiller Units with 48k BTU Capacity, Radar/GPS/Auto Pilot, **Backup Manual Engine Controls**, This boat was designed to provide all the comforts of home with peace of mind in any situation.

Neptunus Yachts are known for their semi-custom yachts: unmatched value, great performance, and unmatched craftsmanship. Expansive galley to port with a (4) person dinette to starboard, to enjoy all your meals with a great view. (3) Stateroom layout forward with an AC control for each, and (2) heads with large enclosed showers. Full beam Master Stateroom offering a roomy layout with great storage.

Decks are designed to provide great security while underway, wide walk around gunnels, seating for (4) on the aft dinette, and private grill aft. Ample seating on the Flybridge with hardtop, $\frac{3}{4}$ enclosure, and wet bar with a large refrigerator. Large tanning area in front of the helm, with a 270 degree view of the entire vessel.

Command stations to port and starboard of the Flybridge give the Captain great control and visibility. Both include Engine Start/Stop, Electronic Shift/Throttle, Bow and Stern Thruster joystick Controls. One of the few vessels, we have seen installed with a MANUAL Backup Shift and Throttle system. Not seen on many boats and is a great item for any condition!

Spacious engine room with access to all systems. Twin AC Chiller units, Generator with complete Sound Shield, (6) way Oil Change Exchange System, Sea Strainers on all intakes. All electrical connections lead to the master stateroom. Starting and House batteries located in the Master as well. You will not find another vessel with the designed access of a Neptunus Yacht.
