SPECIFICATIONS

Overview

Looking at Gemini's and Maine Cats? Take a Close Look at this TomCat 9.7! Tikari is a performance oriented cruising catamaran built in Canada by TomCat Boats. The small production builder is still manufacturing high quality, semi-custom catamarans today. The high length to beam ratio of her hulls, light displacement, efficient rig and a high aspect ratio foil centerboard give excellent performance in all winds and on all points of sail. Sail control lines are led to the cockpit for single hand convenience. Twin outboards in wells provide quiet, comfortable motoring and are easy to maintain. Center-line wheel steering and instrumentation is just a step away from the interior navigation station. The cockpit features a hard top and wide bench seating on the stern. I think one owner puts it nicely... "The 9.7 has been designed with the sailor in mind. Controls are easy to use, equipment is better than average for a boat in this price range, accessibility to all systems is excellent and spaces are opulent for its size."

Basic Information

Category: Catamaran

Model Year: 2004

Year Built: 2004

Country: United States

Dimensions

LOA: 32' 0" (9.75m)

LWL: 31' 6" (9.60m)

Beam: 16' 0" (4.88m)

Min Draft: 2' 6" (0.76m)

Max Draft: 5' 0" (1.52m)

Clearance: 45' 0" (13.72m)

Speed, Capacities and Weight
