ХАРАКТЕРИСТИКИ

Обзор

The Azimut 72S is the result of the use of carbon-glass throughout most of the structure, a technique that makes the yacht even lighter and stronger as well as ideal to accommodate its 1800 hp MAN engines. Guest safety is encoded in the yacht's DNA, with extra high safety handrails found everywhere, designed with children's maximum safety in mind.

Cockpit

Fused in the cockpit to offer guests unforgettable experiences: the C-shaped sofa with lateral sections that create a chaise lounge effect merges with a central section to form a large sun-deck area. The central structure can be transformed into a table and together with the sofa, creates a comfortable dining area. Furniture and service equipment such as the mini-bar and the barbecue are hidden from sight, perfectly enveloped by the structure's volumes. This avoids creating barriers between the interior and the exterior, when the saloon door is completely open.

A flybridge on a sport boat

Is a breakthrough and a revolutionary concept. A sport-fly of almost 20 square meters is an innovation that gives rise to a new class of models and creates a milestone in the evolution of the S Collection, already defined by the opening hardtop and by new style concepts such as the square hull windows. The flybridge includes a chaise lounge area in the bow section, a cocktail/dining area and a futuristic sun bathing area.
