DETAILED INFORMATION

Accommodations

Walking into the salon is a delight to the senses and your first impression will be that you are aboard a much larger yacht. With nearly 19 feet of beam, the expanse resembles a stately great room, lush with individually chosen planks of random, natural teak each one featuring a tight, fine grain that defines the area with sense of richness and custom appointments. A home theater system includes a 46-inch flat screen television, which rises from the teak cabinetry and an audiophile Bose system. The serving island, a Viking innovation, is topped with custom granite, as are all of the counters in the L-shaped galley. The island is ideal for prepping meals at the dock or under way, and allows more freedom of movement throughout the area with two egress points. Drawer-style under counter refrigeration and world class appliances will bring smiles to even the most demanding chefs.

Four-stateroom layout, the two port staterooms share the port head. While all of the staterooms offer generous accommodations, including System #1 innerspring mattresses, excellent storage and privacy, each has its own special take and is uniquely designed to maximize comfort and function. The forward stateroom offers a queen size walk around berth. The port stateroom has side-by-side berths and the fourth stateroom features upper and lower berths. The master stateroom is amidships with an athwart ships queen-size walk around bed, an upholstered headboard, flanking night tables, a credenza, a 32" flat screen television, and a pair of floor to ceiling maple-lined hanging lockers.

Remarks

Don't miss this rare opportunity to own a 2018 Viking 62 for a discounted price due to the owner's change in plans. WANDERLUST has it all and was designed and built to tournament fish. The owner has put a lot of effort and dedication into this traveling and tournament fishing boat. She is ready to fish immediately!

The Viking 62' is one of Viking's showpiece models in their line-up. The composite cored hull is resin infused with a high modulus of Dupont's Kevlar, carbon fiber and knitted fiberglass laminates selected to reduce weight while increasing the overall physical properties of the structure. Staying in line with this thought process (weight and strength), the 62 Convertible's interior stateroom and hanging locker doors, as well as cabinet fronts throughout the yacht incorporate honeycomb coring for further weight reduction. WANDERLUST presents eight feet of freeboard at the bow along with the gentle crown on the flush foredeck that is aesthetically pleasing to the eye, and increases the headroom in the forward stateroom. A newly designed engine room vent fascia with longitudinal fins give the boat the illusion of speed even at rest, while keeping the machinery space dry and supplying a rush of combustion air. From look to performance the 62 makes a statement on any dock.

Exclusions
