SPECIFICATIONS

Overview

VOYAGER III was delivered in 2006 and is probably the best example of the popular Nordhavn 76 with optional extension to 78ft, built to date. Loaded with \$1m worth of practical and useful extra equipment and features VOYAGER III was custom built for a very experienced boating family to continue their world cruising lifestyle. She is powered by a pair of reliable and economical 400HP, Series 60 MTU diesels that provide an 8.5 knot cruise speed while burning only 40 ltrs per hour. VOYAGER III is fitted with Zero Speed stabilizers ensuring a comfortable and relaxing environment for owners, guests and crew even in windy and choppy anchoring situations. VOYAGER III is an Australian Registered Vessel with duty and GST paid. Although her current owners have only used the boat privately, she is in current AMSA survey class 2B -2C for 10 persons allowing new owners to offer her for charter if they wish. The owner and professional crew of VOYAGER III continually make sure she always enjoys the best care, attention and maintenance possible since her launching. This is evident throughout the vessel as every area from the keel up presents in excellent condition. The owners of VOYAGER III took delivery of the vessel in California where she commenced her successful cruising schedule with voyages to the Sea of Cortez, San Francisco, British Columbia, Alaska, Hawaii, Tahiti, to her home port in Australia, New Zealand, Thailand, Malaysia and the list goes on! Without doubt, VOYAGER III is a tried and proven world cruiser, she has provided her owners with a safe, luxurious and capable platform to enjoy visiting destinations around the globe. Her present sea ready condition is such that a new owner could fuel and provision the boat then commence an extended cruise to whatever locations they choose to visit!
