# DETAILED INFORMATION

---

## 36' Dakota 2005/2012

---

Don't miss out on this triple engine Dakota repowered in 2012!

In 2005, Dakota started powering their boats with triple engines rather than twins for better efficiency and reliability. If you lose an engine while offshore, this boat needs 2 engines to get on plane. This is why it is so valuable to have triple engines!

The Dakota 36 is well known in the offshore fishing and cruising community as one of the original builders of a great offshore riding hull.

Designed to cater to the experienced boater, whether it be snorkeling in the Bahamas, fishing off the Florida coastline or cruising the Chesapeake Bay...this 36 Dakota will get you there quickly and comfortably.

---
