SPECIFICATIONS

Overview

This 2007 65 Marquis combines luxurious amenities, welcoming spaces, and fascinating décor to give you and your guests an experience like no other. She has the right engine package with her upgraded twin CAT C-30 engines (1550hp each). The optional wireless Yacht Controller lets you operate the vessel precisely from any spot on the vessel. This vessel shows pride of ownership in all aspects as she has been meticulously maintained by her experienced owners. The list of upgrades is extensive! Make sure if you are in market for a 65' motor yacht, CHAMPIONSHIP is on your short list. We think it is important to note the Marquis offered an extensive option list. We believe it is extremely important to know that not all 65 Marquis are created equal. The new cost of the option could vary by as much \$500,000.00. As you compare her to others in the market place, we encourage you to consider a few things: Does it have a hardtop? Does it have the second A/C on the bridge? How old is the bridge enclosure? Can the aft bridge stairs be closed off with a solid door(for A/C, security and safety purposes)? Will you use the lower helm or is the Skylounge a better option for your program day in and out? Do the other boats you are considering offer his and her heads in the master stateroom? What kind of closet space does the master stateroom offer? Is the maintenance up to date?

CHAMPION SHIP features include (but are not limited to):

- Upgraded twin CAT C-30 engines (1550hp each)
