Overview

The largest yacht ever to be designed and built in Spain by an all-Spanish team – Acubens Naval Architects and Marcelo Penna Yacht Design – this magnificent MetalSHIPS Rodman 59m (193'6) is a sleek and agile trans-Pacific motor yacht with a cruising range of 6,570Nm and a touch-and-go helipad, offering a sense of adventure for her guests. With her twin 2,682 HP Caterpillar engines, she has a cruising speed of 14 knots, reaching a maximum of 17 knots.

The contemporary and bright interiors of this 59m (193'6) tri-deck, with a beam of 10.7m (35'), have been created by Toni Colom of Marcelo Penna Yacht Design and boast all the amenities one would expect to find on a custom-built mega yacht.

The project led by Toni Colom from Marcelo Penna Yacht Design carries a timeless and luxurious approach to match the exterior lines, and allows the customer to add a more modern or classic touch. The rich interiors bring together glossy woods, mirrors and crystal deco. These details reflect the modern and elegant style of the yacht's interior. The general concept embraces strong architecture with a combination of vivid colour palettes.
