Overview

OVERVIEW

The Dyna 63 offers a surprising amount of space. Outside areas for relaxing or social activities include copious seating on both the flybridge deck and aft deck. Between the spacious salon and deck areas, up to 30 guests may be entertained at one time. The extension of the flybridge deck all the way to the transom provides shade for the aft deck without the need of extra covers.

FEATURES

Owners may choose between two layouts for the main deck. The “galley aft” layout puts the galley and bar close to the salon entrance. This allows the owners to entertain and talk to the guests on the aft deck and in the salon while preparing food or drinks in the galley.

The “galley amidship” layout puts the galley in the middle of the main deck. This layout provides a huge indoor seating area for owners and guests to relax comfortably. Both layouts feature large windows that provide natural light and beautiful views.

INTERIOR

The four-stateroom layout of the lower level includes a crew cabin at the stern. The full beam master stateroom comes with an en-suite bathroom with enclosed shower, king size bed, a teak table with two single sofas, and large windows for natural light and views of the sea. The VIP stateroom forward may be configured as either a Queen or King size berth. The other guest stateroom has two twin beds. The VIP and guest staterooms share a bathroom with a separate enclosed shower. The crew cabin aft is accessible from the swim platform or the aft deck hatch.

The crew cabin is spacious with full headroom, a private head and lounge area with table, seating and galley. In fact, the crew cabin is so comfortable that it may be used as an additional guest stateroom if needed.

ENGINES

To ensure the smooth running of all systems, the engine room with its seven feet of headroom is well laid out for operation and routine maintenance. The arrangement of pipes and wiring is clear and neat for convenient inspection.

OPTIONS

As with all models of Dyna Yachts, you can select the materials, equipment, and parts to build a personalized yacht that reflects your taste in yachting. Customization services are also available. Customers are welcomed to discuss their personal demands or ideas with Dyna’s design team for customizing his dream yachts.

OPTIONS ARE AVAILABLE AT AN ADDITIONAL COST
