Overview

BRING ALL OFFERS!!!

The Tiara 4300 Sovran with Volvo IPS (Inboard Performance System) challenges every assumption about what a boat can be by changing the whole future of onboard performance while elevating enjoyment of the boating experience. Enjoy conversations in comfort while underway with reduced noise and vibration emissions due to the Volvo IPS performance and better fuel economy and durability without the excessive exhaust smoke. The docking ability of this boat is unmatched due to the joystick controls that make low speed maneuverability a breeze in any condition.

With a subtle, single movement of the joystick you are in command of the Tiara 4300 Sovran and the IPS propulsion units respond quickly in any direction.

You now have complete control of your Tiara 4300 Sovran in the tightest docking situations, coming about, reversing or even going completely sideways. The best part about the Volvo IPS system is that it takes up 25% less area in the Tiara 4300 Sovran giving you a fully operational second stateroom with a full head to use.
