# DETAILED INFORMATION

---

## Accommodations

---

Starting aft is the master stateroom trimmed in the finest tropical decorated wood with detail unrivaled for a blue water cruiser. Ventilation and light are provided through two ports and an opening hatch. With storage and elegant comfort a priority, the master head is trimmed with the same care and precision featuring granite counter top and stainless steel sink. The shower and commode are surrounded by a mosaic that combined with the granite compliments the entire master cabin.

Going forward to port is the Pilot House navigation station with large custom inlaid chart table. Behind is a large hanging locker. A Teak steering wheel with engine panel positioned for 360-degree walk around capability. Starboard of the lower helm is seating for 2 and a Sea berth with small dining table.

As you move forward to port the fully equipped galley with ballasted gimballed three burner Seaward stove and oven, twin stainless steel sinks with pressure fresh water and manual sea water, Corian counter tops and Technautic Cool Blue refrigerator and freezer. The galley has ample storage space for extended cruises and is capable of full meal dining.

Forward to port is the salon with a lowerable dining table and C shaped firm foamed cushioned seating. The dining table is a one-of-kind wood with custom inlay. Across to starboard is the single seating/berth and entertainment area with additional shelving all trimmed with astonishing detail.

Moving forward to port is the guest head with stainless steel sink Corian counter tops, plenty of room and storage and separate private shower.

The forward stateroom features the continuation of craftsmanship all the way through the cruiser. The V-berth has ample storage for long journeys and easily converts to a full-size berth for 2. Looking aft from the guest suite, it's very apparent that no shortcuts were taken and the attention to detail was a priority with this completely and recently updated vessel.

Natural light is provided throughout with twelve opening ports, six opening hatches and six Dorade vents.
