Engine Information

Engines: 2

Manufacturer: Volvo Penta

Model: IPS 600

Engine Type: Inboard

DETAILED INFORMATION

General Overview

Arcadia's "Sherpa" is a revolutionary entrance into today's yachting world. Their "ecological dream" philosophy has incorporated a low carbon footprint and use of solar panels to produce a close bond with the sea for a new, greener experience on the water. This pocket superyacht has the al-fresco entertaining area of a vessel twice her size and yet has two (2) large en suite staterooms. The galley and dining banquette on the bridge deck allow for a 360-degree view of whatever anchorage you may choose. The cruising speed of 15-19 knots gives a great range for travel with the added comfort of "Seakeeper" gyro stabilization. "TOC" is Arcadia's USA tropical model with added large capacity air conditioning of 72,000 BTU.

Wheelhouse Area

- Carpet floor
- (2) Pilot seat - Technical fabric
- Fiberglass Varnished Dashboard
- (1) 16' Volvo Penta glass Aft Deck multi-function display
- (1) Volvo Penta joystick
- Volvo Penta B-Leva EVC for IPS
- Volvo Penta steering unit
