SPECIFICATIONS

Overview

This vessel has followed in the footsteps of several sisterships which have successfully done the great loop trip from New England through the Great Lakes, down the Mississippi. These current owners from the west coast of Florida have cruised most of Florida, extensively in the Bahamas and along the east coast of the United States up to Mount Desert island well up the coast of Maine. Her cruising amenities include twin diesel power provided by Ford Lehman Diesels with the larger than usual 225 hp engines that have only 5802 hrs. on the port engine and 5837 to starboard hrs. Most people assume a life span of 15 to 20,000 hrs. on those engines, if well maintained.

Basic Information

Category: Motor Yacht

Sub Category: Long Range Cruiser

Model Year: 1985

Year Built: 1985

Country: United States

Dimensions

LOA: 42' 0" (12.80m)

Beam: 13' 0" (3.96m)

Speed, Capacities and Weight

Water Capacity: 240 Gallons

Holding Tank: 40 Gallons

Fuel Capacity: 450 Gallons

Accommodations

Total Cabins: 2

Total Heads: 1

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Ford Lehman

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Vessel Walkthrough

The aft deck is more than adequate to comfortably seat four and can be accessed from the side decks and the ladder rising up from the swim platform. The main decks on port and starboard sides have been stripped of teak for greatly eased maintenance. Going into the main salon there is comfortable seating for four or more along with lower controls to starboard served by an immediately adjacent door onto the main side deck. Going forward is the galley to port with a dinette to starboard that can convert to sleeping two. Further forward is the guest stateroom for two with a private bath that is equipped with a telephone shower. The compartmented anchors and two rodes are stored all the way forward.

Going forward from the aft deck and amidships there is a gentle stairway up to the flybridge. On the bridge, there is comfortable seating and full enclosure with Bimini top and side curtains on both sides. Steering visibility from the flying bridge as well as from the lower helm station is excellent and adequate.

Please see below for some more details regarding the vessel.

ENGINES AND MECHANICAL

Twin 225 HP Lehman Diesels with 5802 and 5837 hrs.

Single Onan 8 KW generator with 6078 hrs.

Electric Flair Ozone generator
