Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Introduction

MANITOU has arrived in Fort Lauderdale after spending many years in the fresh waters of the Mid-West. This 3-stateroom popular William Crealock design is powered by economical Cummins 450 hp engines with very low hours. As a result of undercover fresh water storage in recent years, she shows like a much newer yacht, thanks to previous captain's maintenance schedule and present owners attention to detail! May 2019 - Manitou was hauled for annual maintenance including bottom paint, zincs, cutlass bearings and prop balance. In addition, hull was detailed and waxed at haul out. Recent updates: New interior soft goods and carpeting Updated electronics, TV's and sound system Complete exterior compound and wax Engine room detailing and paint work Engine exhaust systems updated New wireless Siren Marine alarm and systems monitoring (phone)
