DETAILED INFORMATION

Power Commander Electronic Controls

Twin Disc Power Commander Electronic Controls give you total propulsion control with electronic precision and literally fingertip ease. With only one lever required per engine, you can control your boat's speed and direction with one hand. You get responsive control over the entire speed range. And Twin Disc electronic controls are as reliable as they are predictable. Weatherproof housing is available for the most rigorous conditions. The Power Commander Electronic Propulsion Control System is versatile, rugged, and easy to install. It's designed to interface with all popular electronic engines and transmissions. Control heads are available in chrome and black.

- **Trolling mode:** optimal slow speed control at a fixed motor rpm.
- **Cruise mode:** normal, usually manner of sailing, but with very quick AND very soft engagement.
- **Express mode:** unique combination of trolling on low motor rpm with passage to full power transmission with one lever movement.
