SPECIFICATIONS

Overview

Custom Line 120', the new jewel of the series, reimagines and combines many stylistic elements, even from automotive design and residential architecture, adding thorough research to bring out shapes and volumes, through layout choices in line with the most recent trends in contemporary living. Totally new is the design of the hull shapes and lines, , to ensure maximum strength and lightness, thanks to the use of carbon. A unique example of the exterior design and interior settings. give a more aggressive and dynamic look even while in port or at anchor. The windows in the hull are large and generous, while on deck the windows are floor to ceiling and create direct contact with the sea thanks to the pulpits which replace traditional gunwales and large window that is divided in two sections and can be opened separately. Highly personalized with exhaustive options list :
