SPECIFICATIONS

Overview

The "BELLA VITA" is only used about 45 days a year. The owner has the yacht stored in a secure warehouse from February 7 through December 15th. The yacht is then used in the KEY WEST area at this time. The yacht is maintained year round while in storage by professionals to maintain the the vessel in yacht grade condition.

This very popular Sea Ray Sedan Bridge is in excellent condition with numerous recent upgrades, including all lights were changed to LED (great for anchoring out as they use less energy) last year. Bow thruster added 4 years ago at the cost of \$15,000.00, new Sony VaiOS tv's in salon and stateroom and a third smaller TV in the guest stateroom. The batteries were upgraded to AGM batteries two years ago. The battery charger was up graded and solar panels were added that rest on the bow and stow away for traveling. There is a Sirius satellite system for navigation.

Recent maintenance:

Both head systems replaced last year, including pumps. Replaced one of the two fresh water pumps, with a second new pump on board but not installed as a spare. the auto pilot , chart plotter displays were fading so they were replaced last year. One bilge pump was replaced and one added as a spare.

**THERE ARE TWO SPARE PROPS THAT CAN BE PURCHASED AT \$800 EACH!
THE DINK AND MOTOR ARE AVAILABLE FOR OFFERS AND ARE NOT INCLUDED
IN THE ASKING PRICE.**

Turn key and competitively priced to sell!

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Manufacture Provided Description

The Sea Ray 400 Sedan Bridge has a gracious standard cabin layout with two large staterooms, two head areas, and a spacious mid level galley with a salon-level breakfast bar. The forward stateroom has a full-size bed, cedar-lined hanging locker, floor storage, private head and shower, and a standard entertainment center with a TV - VCR - radio combination. The two twin beds in the port stateroom easily convert to a king-size bed. There's plenty of room for stowing personal articles in the hanging cedar-lined locker, built-in drawers, and floor storage. The guest head with shower is right next door. The magnificently finished galley has wood cabinetry, a flush-mounted three-burner electric stove, refrigerator with freezer, microwave, and coffee maker. The salon comes complete with an electric sleeper sofa, entertainment center with TV - VCR - radio combination, cocktail table, and a full dinette which can be replaced with an optional lower control station. She features deep-pile marine-grade carpet and granite-colored countertops and tables, with handcrafted wood trim throughout. Molded steps with a security hatch and gas-assisted latch provide safe access to the spectacular bridge. The helm area offers plenty of room for socializing with a centerline helm station with dual companion seat plus spacious U-shaped bridge seating with a sunpad, filler cushions, and cocktail table. For good looks and easy maintenance, there are the following: a snap-in carpet liner, burl instrument panels, an aluminum framed venturi shield, fiberglass spoiler, Bimini top enclosure, new bridge aft enclosure, and a double sunpad aft of the seating area. The self-bailing fiberglass cockpit is equipped with a gas-assisted bilge service hatch, aft and side panel storage, fender storage tastefully concealed in the transom aft wall, even an ice maker. Here's another Sea Ray touch - the battery on - off switch is in the cockpit instead of the engine room. The Sea Ray 400 Sedan Bridge boasts a wealth of standard equipment including twin 350 HP Caterpillar Diesel inboards, remote start generator, Raytheon electronics, Lofrans windlass, interior Sunbrella carpet runners, even a Clarion AM-FM digital cassette stereo with six-disc CD changer, amplifier, subwoofer, eight speakers, and a bridge remote control. A standard accessory package comes complete with ACR remote-controlled spotlight, oil changer system for the diesel options, telephone inlet, and even a dual outlet vacuum system.
