SPECIFICATIONS

Overview

Price Reduction - was \$445,000 - Now \$399,000

Like new with only 150 HRs and Warranty. The new open model is sure to turn heads with her sleek lines. For those days at the sandbar the new layout provides ample seating through out. Unbelievable ride and performance... You can be in Bimini before your beer warms. The aft cockpit provides a great tackle station along livewells for the days offshore fishing. The New 42' Motion checks all the boxes. Do not miss this opportunity because she will not last long. TRADES CONSIDERED

DETAILED INFORMATION

Accommodations

This vessel/engine combination has been fine-tuned for a quick get-up-and-go configuration that will top out at **70+ MPH** at wide open throttle. The 42' Motion Center Console is Powered with Quad 350 Mercury Verados that have **5 years of Engine warranty**.

This Motion Center Console is configured with a coffin box forward with drop down seating port & starboard. 3 seats located in front of the console with cooler below. Two rows of seating behind helm area and two drop down transom seats. Head is located in the console. Tackle station behind helm seats with cutting board on top. Custom bolsters throughout with a side dive door on Starboard side. Live well is located on the transom. Great layout for fishing, cruising or lounging at the beach.

The custom 6 post tower & both rows of helm seating were designed and installed by Miami's premiere welder, Pipe designs. They were both made with the strongest and lightest metals available. The top and seating are not only gorgeous, but extremely durable. The control station lay-out was meticulously configured with ease in mind! It is backed by a very appealing carbon fiber background and the dual Garmin screens are in plain sight. She is also coupled with the easy to use Mercury Vessel View command centers, and digital fly-by-wire mercury throttles

Company History

We at Motion would like to thank you for taking this time to visit with us and get acquainted with our product line. We are a company that has been producing national and world championship boats now for more than a decade. With all the years of racing under our belts and dedication to research and development, we know what it takes to build a perfect high performance boat. Our boats are better handling and offer a smoother operation than the competition. Let the ride decide.

At Motion, we spend countless hours finessing the weight balance on all our boats. The perfect balance on a hull will require less effort to propel it through the water for optimum performance whether in smooth water or rough water conditions. It also creates less demand on your drive train that equals to more longevity. We truly build a true offshore cat and our new 42' SF Deep V models that can handle the rigors of what Mother Nature can throw at you. You won't need to pick your boating days any longer.

Exclusions

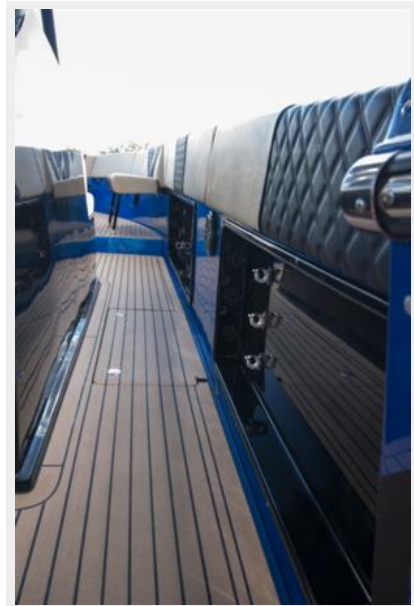

Owner's personal belongings.
