Manufacturer Provided Description

The Oceanis 48 is a full-size yacht which boasts an expansive cockpit and wide open interior, all in understated luxury: design, space and seamlessly integrated functionality, with beautiful details and finish options.

Anchor: Manson Supreme approximate 60 pound spade-style

The rig was inspected aloft and all terminations, turnbuckles, and attachment points were secure and free of obvious defects. Exposed terminations (headstay fittings not fully sighted) did not show swage cracking (or other obvious defects) upon hand magnification. Spreaders were securely attached at their inboard ends and upper shrouds properly captivated outboard. All components at the masthead were secure and in good order except as noted. The VHF radio antenna base was bent and antenna loose and it didn't appear that the antenna was a proper match to the base. The antenna was temporarily secured with tie wraps at time of survey. Mast lighting consisted of anchor, steaming and foredeck floodlights. All lights were operational. Cosmetically, the spar was in generally very good condition. Miscellaneous spar hardware consisted of Windex manual wind direction indicator, cylindrical radar reflector, wind sender, fiberglass VHF antenna, radar scanner, flag halyard, spinnaker halyard, standard topping lift, kick-up vang and telescoping aluminum whisker pole on mast heel track.

Engines

75 HP Yanmar - fresh water cooled turbocharged diesel showing model 4JHTE. Engine serial number is listed on the opening page of this report. It drives a ZF POD-120 marine reduction gear saildrive model SPPSB75-2.5.

Generator is a Cummins-Onan 7.5 Kw unit showing model number 6MDKBJ-100C and serial number H130540277. The unit is driven by a Kubota freshwater cooled diesel.

Electronics - Additional Details

B&G T-12 GPS plotter, sounder and 36 mile radar. 2 x B&G T-7 repeaters. Simrad RS35 VHF radio
