## Overview

---

Star Gazer is a 1987 47' DeFever Performance Offshore Cruiser. She is very unique, in that she is reportedly one of only two 47' models built with the open sundeck like the 44' model. Star Gazer is even more unique, in that her present owner invested an enormous amount into her to set her apart from all other 47' DeFever's. She is the only 47' DeFever I know that has Naiad stabilizers. She also offers bow and stern thrusters, electronic engine controls, fuel polishing system, oil change system, Magnum inverter, new Kohler generator, updated Simrad electronics, KVH satellite TV system and 65" Samsung flat screen TV on an electric lift in the salon. These are just a few highlights of what has been added or upgraded on Star Gazer. Her sellers have completed the Great Loop and are moving on to other adventures, so take advantage of this rare opportunity to buy such an incredible DeFever!
