## Remarks

---

The "Two Krickets" is quite possibly the best designed walk-around to date. Nothing was overlooked during the design and build process. She is loaded with gear and features a roomy comfortable cabin with all the amenities of a 60 footer. Her performance and fish ability are all Jim Smith, exceeding every goal of her design. Exceptional dry and soft riding with speeds near 50 kts and exceptional range, she is a contender whether tournament fishing or using as a weekend get away with all amenities. Mercury power with extended warranty and a Seakeeper to give you years of worry free and stable operation.

Quite simply this boat must be seen to be fully appreciated.
