- Full MAN diagnostic panels at helm
- Oberdorfer lube transfer system
- ZF marine transmissions
- Tides marine dripless shaft logs
- Hynautic hydraulic steering
- Bennett trim tab systems
- Racor filters and housings

Remarks

The transformation of this Viking 53 Express started in 2000 The Express layout was more suited for the owner! His idea was to strip it down to the hull removing the house, decks and all wiring and engines. He then went on to reinforce the vessel's bottom, chines, stringers and bulkheads to accommodate for the upgraded MAN 1300 HP engines. Thus delivering performance and speeds to reach those remote fishing grounds. In 2008 she received a new Pipe Welders tower and a fresh Awl Grip paint job. In 2015 the engines and generators were rebuilt as well as fit for new ZF transmissions, shafts and propellers. There were also money in the budget at that time to replace most of the major electronics onboard. This magnificent transformation all started because of storm damage 25 Years ago and it was decided to redesign her into the beautiful 53 express that she is today. She is priced to sell and ready to go. Please call today with any questions or to schedule an appointment to see her for yourself.

Exclusions

Owner's personal belongings.
