SPECIFICATIONS

Overview

Welcome to the 2008 Maritimo 48. Maritimo is based out of Australia and brings a unique design to the table. They are best known for large fully enclosed flybridge yachts. With Maritimo's racing background, their boats are built to a standard of efficiency, performance, and precision. The 48 Maritimo brings all of their great qualities into one boat. This boat has a very well thought out design. From the roomy cockpit, the aft doors side out of the way to reveal the aft galley and salon, creating a seamless transition from inside to outside. By not having a lower helm, it allows the vessel to have much more seating room in the salon. The design also features a beautiful interior staircase to the enclosed bridge. This provides comfortable access no matter the weather conditions. Another signature feature is the deep walk ways up to the bow. This provides comfort and safety as you make your way to the bow. This vessel specific boat has had some special features including a hydraulic swim platform, it's been under a cover since it was new, the Generator was replaced in 2018 and has low hours on it, Satellite TV, New carpet, and new fabric on furniture. Come see the boat in person! It is located in Gulf Breeze, FL. All you have to do is call!

Basic Information
