SPECIFICATIONS

Overview

Mrs. Seven is the seventh hull in the Southern Wind 100 mini series, and the first in its class with a Raised Saloon. She is built to the highest RINA safety standards (Rina Charter Class) and technical specifications, including a High Modulus Carbon mast and EC6+ Carbon standing rigging, to offer excellent performances. She features the sporty lines of a low coach roof profile and an open transom, typical of SW100RS, but modified in 2015 aligning its design to the latest design and technology trends. The interior layout follows the classic SWS configuration with an ample owner's cabin forward, three guest cabins amidships and the crew quarters and galley aft, to ensure privacy on board. The saloon is a wide living area which makes use of the full beam of the yacht. This creates a single open space with the adjacent study. The interior styling reflects the sporting vocation of this yacht with the use of light color fabrics and contrasting horizontal grain teak furniture. The yacht can be converted into "Commercial" and carry out charter activity.
