SPECIFICATIONS

Overview

If you're in search of a 65-70FT yacht, this 2013 Fairline 65 Squadron should be the first stop on your list. The massive flybridge with hydraulic bimini top separates this 65FT flybridge yacht from the others and allows it to compete with larger flybridge vessels in its class. As you enter through the sliding cockpit doors you move pass the award winning Bang and Olufsen TV and sound system in the saloon and continue forward to the state room entry you cannot help but imagine entertaining family and guest in the massive saloon and galley. Continuing below you are greeted with a generous VIP cabin forward with floating bed design. Included in the VIP cabin is an en suite head that rivals most master suite heads in other yachts. Moving to the stern of the vessel you pass a day head, a twin side by side berth and twin bunk berths just before entering the luxurious and open master suite. You cannot help but notice the massive feel of this master suite with the addition of the glass wall separating the head from the stateroom.

Conveniently located in St. Petersburg, Fl.

Basic Information

Category: Motor Yacht

Sub Category: Flybridge

Model Year: 2013

Year Built: 2013

Country: United States

Registration #: 1245663

Fly Bridge: Yes

Cockpit: Yes

Dimensions

LOA: 65' 0" (19.81m)

Beam: 17' 2" (5.23m)

Max Draft: 4' 11" (1.50m)

MFG Length: 65' 0" (19.81m)

Speed, Capacities and Weight

Displacement: 72510 Pounds

Water Capacity: 305 Gallons

Fuel Capacity: 936 Gallons

Accommodations

Total Cabins: 3

Sleeps: 6

Total Heads: 2

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Caterpillar

Model: C-18

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

- Stainless steel handrails
- Stainless steel pulpit
- Starboard side access door
- Teak laid bathing platform
- Transom gate from cockpit to hi/lo bathing platform
- Twin horns
- Water filler(s)
- Windscreen washers

Hull Form and Construction

- All gel coat and glass fibre hand laid with unidirectional, biaxial and woven rovings
- Antifouling protection to hull
- Bow thruster
- Deep 'V' forward; 18° deadrise aft
- Design, layout and detailing by the Fairline Design Team. Naval architecture and structural engineering by Bernard Olesinski
- Fire extinguisher
- Full length molded spray deflectors
- Holding tank(s) with electric pump
- Hull/deck join bolted and bonded
- Hydraulic hi/lo bathing platform for tender launching and recovery
- Integrally molded engine bearers
- Isophthalic gel coat backed by isophthalic resin-rich powder-bound glass mat
- The deck incorporates polyurethane foam cores for high strength and excellent thermal insulation
- The propellers are set in semi-tunnels enabling the engines to be located further aft, also reducing draught and improving efficiency by reducing the shaft angle
- Thermal insulation to forward cabin and upper deck roof space
- Transverse frames and longitudinal stringers throughout hull
