SPECIFICATIONS

Overview

MR. CANCUN is a very clean and well maintained 780 Ferretti offering the best engineering along with the finest Italian design. It is well-kept by an experienced Captain.

She is well equipped with recently upgraded Garmin touch screen plotters and lighting upgraded to LED. She is beautifully finished with the Italian attention to detail and an interior layout that is very generous and comfortable.

MR. CANCUN is built by Ferretti S.P.A., hull No.16 in this production line. This yacht is a fiberglass, fly bridge motor yacht with a planing hull. There are 4 en suite staterooms plus a 2 cabin/1 head crew quarters aft of the master and forward of the engine room.

DETAILED INFORMATION

Walk Through

Board MR. CANCUN via passerelle to the spacious, open aft deck that provides overhead cover from the extended boat deck. The aft deck swim platform, side decks and foredeck are teak. Dual stairways lead to the swim platform which becomes a teak decked beach with the lowering of the transom. A stairway to starboard give access to the fly bridge. Teak laid side decks lead forward to the bow where on finds another large sunpad.

The fly bridge is designed to be the primary al fresco platform. A hard top gives sun relief to the helm station, lounge areas and settee with table or can be open with it's retractable sunroof for panoramic views and wind in your face cruising. A davit and RIB tender are aft.

The salon is beautifully appointed with teak joinery, leather settees and a formal dining area forward. A well equipped galley is just forward of the dining area as well as a stairway accessing the accommodation deck to starboard. Fully forward is the main helm.

There are 4 en suite staterooms with a full beam master suite, a forward VIP stateroom and 2 guest staterooms to port and starboard.

- Hot water heater

Manufacturer's Description

24 meters long, the Ferretti 780 is characterized by a completely innovative internal layout that guarantees ample space and is finished in heartwood and teak instead of the traditional cherry-wood used in yachts of this size.

The design decision to integrate the flying bridge access stairs into the side of the yacht offers continual visibility from aft to bow, increasing the salon space which has two

contemporary-style sofas. Light furnishings thrill the spirit, large windows allow the possibility of living in close contact with the sea.

The master cabin with en suite bathroom is an extremely elegant environment for fully enjoying the sea. Thanks to the introduction of an aft garage in teak, the 780 offers even more possibilities to take advantage of the external spaces, facilitating the descent into the sea.

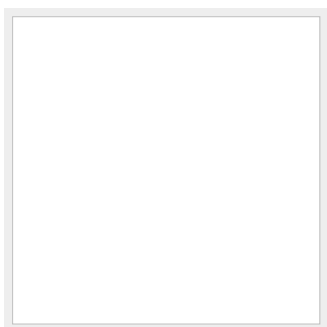

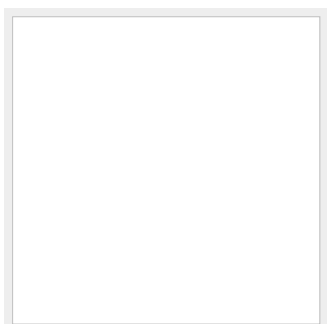

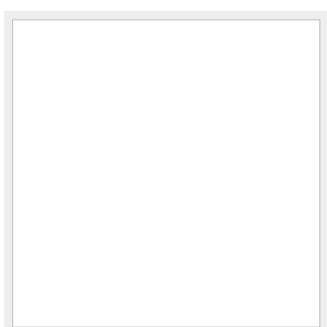

Exclusions

Owner's personal belongings.
