Manufacturer: Volvo

Model: IPS600

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Walkthrough

Will be displayed at the 2019 Miami Boat Show Feb 14-18th! Call for Appointments

The Pardo 43's Distinctive inverse "Axe-Bow" and V-Hull has a 16° deadrise angle at the transom and more than 50 at the bow. This ensures greater stability and smoothness in all sea conditions as well as easy maneuverability and faster planning. In addition, the Pardo 43 has two strong points. First, the vinylester resin infused hull, creating a unique monolithic form together with the keel. Second, the side and the deck, that are made in high density PVC sandwich. This ensures optimum structural rigidity and excellent thermal and acoustic insulation. The walk around design is one of the main advantages of the deck: it guarantees extra space and facilitates safe access to the bow sundeck. As in very large yachts, an optional longer stern platform can be used to step on or off board, take a swim, a shower outside or as an extra entertainment area. The inverted bow creates a beautiful and dramatic design element that also helps cut through the waves at cruise speeds.

The PARDO 43's timeless elegance and unique personality are the result of both our boatbuilders' expert hands and a unique design that showcases craftsmanship, even in the most modern shapes. Thanks to its linear and refined furnishings, the PARDO 43 interiors reflect the excellence synonymous with Made in Italy, characterized by a careful choice of wood veneers and meticulous workmanship.

Fuel Efficiency:

1500 RPM / 9.5 knots / 6.3 GPH / 500 NM Range

2000 RPM / 14.3 knots / 11.5 GPH / 407 NM Range

2800 RPM / 25.5 knots / 22.5 GPH / 372 Range

3200 RPM / 30.8 knots / 30 GPH / 331 Range.
