Overview

EXCLUSIVE BROKER FOR RELEASE BOATWORKS!

The most popular of the Release Boatworks fleet, the 46 is one of the first boats in her class to be designed from the keel up to utilize pod drives.

Rather than adding these innovative and efficient propulsion systems as an afterthought to an existing hull, Release Boatworks embraced this technology with a vengeance, developing what will become the marine industry's benchmark for maneuverability, fuel efficiency and other areas.

She's also one of the most beautiful boats on the water, with lines reminiscent of the finest by Rybovich and Merritt. From the unbroken sheer line to the gentle curve of her transom tumblehome, she's definitely a head-turner and yet beneath those clean, classic lines lies some of the most modern technological advances in boatbuilding available today.

The Release 46 is available in **three different configurations: Convertible, Express and Walk-Around**, each with a distinctive benefit for her owners. Those who prefer to troll will most likely gravitate toward either the traditional Convertible, with her flybridge control station and spacious salon belowdecks or the Express with both upper and lower control stations, while those who chase big fish on light tackle or drift fish for sails or swords will find the Walk-Around the perfect vessel for those pursuits.
