# DETAILED INFORMATION

---

## Introduction

---

This award winning model is the only ABSOLUTE 70 STY available in the US. With Absolute you'll always get a great performing and very fuel efficient boat due to their second to none expertise with Volvo IPS propulsion and optimized hulls. **She's a full time crewed one owner vessel, never chartered, has low hours and is in immaculate condition.**

Thanks to the full time crew, the owner has spared no expense in keeping up with maintenance and it shows! She has a very spacious full beam master stateroom with two settees, lots of natural light due to the huge windows that sit just about 6" above the waterline giving the impression the bed is floating just at sea level, fridge, safe in master and en-suite head.

Excellent headroom all throughout the boat. Total of 3 staterooms and 3 heads plus large crew quarters with independent cockpit access. For owners privacy the crew has their own head and kitchen as well. Worldwide boat. She's equipped with a power converter 60HZ / 50HZ installed here in FL which means she can be hooked up to shore power anywhere in the world! Easy to handle and dock with Volvo Penta joystick control and even has the Volvo DPS (Dynamic Positioning System) installed. She has a low profile which is a huge plus when you don't have to wait for every bridge to open up! Aside from the big windows which makes for great driving visibility all around, to maximize the sunlight there is a very large motorized sunroof in the salon and a second motorized sunroof above the cockpit. The cockpit doors slide open very wide and this all really brings the outdoors feel inside. This yacht has a ton of extras, she was built with all the available options offered by factory.

Thanks to its design, interior layout and innovative features, the ABSOLUTE 70 STY won the award for "European powerboat of the year" when premiered.

---

## Accommodations

---

With 3 cabins, the owner's and the VIP are true masterpieces – lounges with sweeping windows creating subtle plays of light. Also, the other interior spaces reveal a sophisticated focus on interior design: a skillful mix of the finest woods, varnishes, steel and glass will bring to life perfect settings for all moments of life on board.

The exterior is also a perfect blend of functionality and sheer beauty, with solutions that make for seamless communication between the various areas. This can be seen in the dual passageway in the bridge area and in the electrically operated side doors that give easy and immediate access to the bows directly from the steering area.

The greatest attention has been paid to the salon area, which merges into the cockpit, creating a single area devoted to entertainment. The undisputed star here is the Home Theater system, which includes a large-format screen.

Light is a key aspect of this area: The retractable roof of the salon and the second Hard Top above the cockpit can be opened to bath the area in light and give a great sense of spaciousness. The bow area is devoted to relaxation, with adjustable backrests on a U-shaped sofa. It blends into the sun pad, creating a generously sized area for sunbathing or enjoying an aperitif from the incorporated refrigerator.
