Hull Material: Aluminum

Interior Designer: Michela Reverberi

Engine Information

Engines: 2

Manufacturer: MAN

Model: 2x MAN LE463 1029 KW (1680 hp) at 2100 rpm

DETAILED INFORMATION

Specification

Delivered in 2016, Quinta Essentia is one of the most elegant and innovative 55-meter superyachts on the market. Her unique hull design and naval architecture are done by the renowned Vripack from the Netherlands while exterior lines were penned by Monaco-based Dobroserdov Design and interiors by Michela Reverberi from Rome. Lavish interior design is evident at every turn, the spectacular main staircase features bespoke ornate panels from Based Upon London, decorative glass from Pictet Paris and floors from Massaletti. The team of designers was asked to add a Florentine theme to the interior. This famous Tuscan city is associated with the Renaissance and holds the title of the greatest inspirational art setting in the world. The result is an ambiance of tranquility and repose.

The yacht is fitted with a hybrid propulsion system and is powered by two electric motors 150kW each. This is especially advantageous for night time departures, quiet berth entries, or cruising up to 10 knots while saving 20% on fuel. QUINTA ESSENTIA has also two modern and efficient MAN diesel engines, bringing the maximum speed to 16.5 knots. The variable speed Volvo generators are efficient and therefore cleaner and quieter at all load levels from 60KW through to 600KW. This results in very low noise and vibration levels and higher comfort.

In addition to the quiet propulsion and generators, the noise levels are reduced by using the latest insulation technology. QUINTA ESSENTIA has double and triple glazed throughout with flush glass on the outside of the portholes – this reduces noise at sea, therefore increasing comfort. XIR heat reflective film is applied to increase the efficiency of the AC system. More efficient air conditioning means lower air speeds from the fan coils – again maximizing comfort. The engine room has additional cooling, reducing the ventilation air speed and as a result reducing noise underway. Dry silencers on main engines and three-part water filtration to reduce noise of generators and main engines.

The top deck features the spacious state-of-the-art gym with floor to ceiling windows which includes; Technogym machines: Kinesis Personal heritage, New Forma Jog treadmill, New Forma recline bike, to maximise your wellness alongside the relaxing outdoor Jacuzzi lounge area.

The main deck has a stunning pool with waterfall. When the yacht is underway the pool water is stored in a tank where the water is pre-heated by the A/C exhaust, saving energy. Aft of the pool is a great outdoor lounge and bar, making this deck much more attractive than traditional yachts. When the stern door comes down the swim platform has an exceptional surface area of 45 m² (485 sq ft) ready for water sports.

The helideck is positioned on the foredeck, the favorite place to land a helicopter

according to most pilots. The helipad is capable handling a Europter EC 135 or similar. Included in the yacht price, the buyer will receive an 8-meter carbon fiber custom limotender in yacht colours, a Castoldi 18' rescue tender and a list of outstanding exclusive interior items, including curved bronze panels from Based Upon London, hand-made wooden and marble floors from the prestigious Vassalotti brand, deck furniture by Glyn Peter Machin, hand-painted finest silk wallpaper from Fromental, marbles, onyx and semi- precious stones, 2 sets of Pratesi luxury linen and bathroom towels and custom loose furniture throughout the yacht.

Exclusions

Owner's personal belongings.
