SPECIFICATIONS

Overview

New As of 2018

- New Panda Generator
- New Teak & Holly Sole
- New paint on Hull
- New exterior canvas
- New Bow Thruster
- New Air Conditioning
- New Icemaker

The True North 38 has low profile timeless lines, a reverse transom finely appointed by True North's master carpenters, and a 360 degree, galley-up layout. Active boating families wanted more room in the cockpit for all their outdoor activities. And they wanted space to stow their water toys like kayaks, wind surfers and dinghies as well as their mountain bikes, fishing and snorkeling gear. We also found that a high percentage of female boaters are not thrilled with their current boat's galley and eating arrangements, especially if these areas are located down below. Families want to be together during the day on one level, where all the action is. So we designed the True North 38 to satisfy all members of the active family. For outside activities, the large cockpit is ideal for lounging, fishing, entertaining or as the hub for water sports activities. Large, double transom doors swing open for easy access to the water, just inches below the cockpit sole. With over 90 square feet of cockpit space, and wide deck seating, there's room for everyone to enjoy the outdoors. Best of all, the cockpit is designed to stow a 10-foot inflatable dinghy with an outboard motor. It's easy to launch and retrieve just pull it in and push it out right through those wide doors. During a cruise, some owners stow their bikes or other water toys inside the dinghy. This system eliminates the need for unsightly davits or expensive lifts. The low profile and extra-wide side decks of the True North 38 also make it easy to stow a pair of kayaks on the pilothouse roof. Walking forward to handle lines or the anchor is also made safer thanks to the wide side decks and thoughtful absence of protruding cleats or hardware.

Basic Information

Category: Motor Yacht

Sub Category: Flybridge

Model Year: 2006

Year Built: 2006

Country: United States

Fly Bridge: Yes

Dimensions

LOA: 38' 0" (11.58m)
