SPECIFICATIONS

Overview

Sellers have taken very good care of this vessel and it shows when you step on board. The 400 Sedan Bridge was one of the most popular boats of its class made at the time. Sea Ray hit the nail on the head when it designed this model. This should be on the top of your list if you are looking for a boat in this size and price range. Contact us today! *Engines serviced every 6-9 Months- They are absolutely Turn Key. *Twin Cat 340 HP 3116TA's, Starboard Engine Has Less Than 100 Hours from a 2014 Complete Rebuild, Port Engine Has Less Than 50 Hours From a 2016 Overhaul.

- 2ea. Air Conditioning and Heat Units (Work Excellent)
- 5 Batteries
- Pro Tech 1240 Automatic Onboard Battery Charger

Power Boat Guide Review Sea Ray got it right with the 400 Sedan Bridge, a super-popular cruising yacht with a near perfect mix of European styling and luxury-class amenities. Introduced in 1996, Sea Ray went on to sell hundreds of these yachts before production ended in 2003. Below decks, the interior of the 400 Sedan Bridge is an appealing display of high-gloss cherry joinery, Ultraleather salon seating, and quality hardware and appliances. Most were delivered with a two-stateroom, galley-down floorplan with dinette and two full heads. (An alternate three-stateroom, galley-up interior was optional.) In both layouts the master stateroom is forward with a

pedestal queen berth, cedar-lined hanging lockers, TV/VCR, and ensuite head. (Note that the salon sofa converts to a bed at the touch of a button.) Cockpit amenities include aft bench seating, icemaker, molded flybridge steps, and transom door with gate. On the downside, the engine room is a tight fit. Built on a fully cored hull with moderate beam, prop pockets, and underwater exhausts, 370hp MerCruiser inboards cruise the Sea Ray 400 Sedan Bridge at 20 knots (high 20s top), and optional 340hp Cat diesels cruise at 22 knots (about 25+ knots top). Manufacturer Provided

Description The Sea Ray 400 Sedan Bridge has individual options ranging from engine upgrades to a lower control station, and there's also a choice between two complete bridge plans and cabin layouts. The gracious standard cabin layout of the 400 Sedan Bridge has two large staterooms, two head areas, and a spacious midlevel galley with a salon-level breakfast bar. The forward stateroom has a full-size bed, cedar-lined hanging locker, floor storage, private head and shower, and a standard entertainment center with a TV - VCR - radio combination. The two twin beds in the port stateroom easily convert to a king-size bed. There's plenty of room for stowing personal articles in the hanging cedar-lined locker, built-in drawers, and floor storage. The guest head with shower is right next door. The magnificently finished galley has wood cabinetry, a flush-mounted three-burner electric stove, refrigerator with freezer, microwave, and coffee maker. The salon comes complete with an electric sleeper sofa, entertainment center with TV - VCR - radio combination, cocktail table, and a full dinette which can be replaced with an optional lower control station. An optional floor plan allows for a third stateroom to starboard with bunk beds, locker, and built-in storage drawers. Both plans feature deep-pile marine-grade carpet and two choices of granite-colored countertops and tables, with handcrafted wood trim throughout. Molded steps with a security hatch and gas-assisted latch provide safe access to the spectacular bridge, which offers a choice of two seating plans. The first allows for a starboard helm station with added room for electronics and custom slide and swivel helm seats. The second plan provides plenty of room for socializing with a portside helm station with dual companion seat plus spacious U-shaped bridge seating with a sunpad, filler cushions, and cocktail table. For good looks and easy maintenance, both designs include snap-in carpet liner, burl instrument panels, an aluminum framed venturi shield, fiberglass spoiler, Bimini top enclosure, new bridge aft enclosure, and a double sunpad aft of the seating area. The self-bailing fiberglass cockpit is equipped with a gas-assisted bilge service hatch, aft and side panel storage, fender storage tastefully concealed in the transom aft wall, even an ice maker. Here's another Sea Ray touch - the battery on - off switch is in the cockpit instead of the engine room. Regardless of the layout, the Sea Ray 400 Sedan Bridge boasts a wealth of standard equipment including twin 380 horsepower MerCruiser gas inboards, remote start generator, Raytheon electronics, Lofrans windlass, interior Sunbrella carpet runners, even a Clarion AM-FM digital cassette stereo with six-disc CD changer, amplifier, subwoofer, eight speakers, and a bridge remote control. A standard accessory package comes complete with ACR remote-controlled spotlight, oil changer system for the diesel options, telephone inlet, and even a dual outlet vacuum system.

Exclusions

Owner's personal belongings.
