# SPECIFICATIONS

---

## Overview

---

In 2010, Delta Powerboats began serial production of carbon fiber motor yachts. Since then, fifteen 54 Carbon's have been delivered to clients in the U.S., Europe and Asia, and both the 54 and 88 Carbon were awarded appointed winners at the annual MBY Motor Boat of the Year awards.

Her lightweight hull is perfectly paired with the most modern IPS propulsion from Volvo Penta, a combination that allows for class leading fuel efficiency, range and maneuverability.

The 54 Carbon is capable of cruising at 30 knots with a range of 500 nautical miles without refueling.

The handmade interior is distinctly Scandinavian, characterized by uncompromising quality and carefully selected high-end materials.
