SPECIFICATIONS

Overview

Reel Deal Yachts is the official USA representative for Anvera's groundbreaking line of luxury rigid inflatable boats. This beautifully designed vessel combines the easy operation of a tender, with the luxury, performance, and comfort of a much larger vessel. Built entirely out of Carbon Fibre, the yacht is extremely light, producing excellent performance, efficiency, and low emissions.

This true crossover yacht is a result of a master team of Italian engineers with a long history of excellence. Attention to even the smallest detail are evident, with innovative solutions and space saving solutions throughout. She has a surprisingly spacious and plush cabin interior to sleep 4 guests, and of course a revolutionary teak laid side opening "terrace" transom which can increase the beam to over 18'!

New Construction Slots available for delivery as soon as Winter 2020 for US Specification models . Client can choose to take European delivery, or optional shipping to South Florida for applicable costs. (Taxes and Duty not included)

CONSTRUCTION PROCESS

Anvera is the result of a ten-year experience accrued in competitions, most notably class 1 Offshore, but also in industrial sectors with a high technology content. This craft is not only lightweight, but also exceptionally resistant and safe; it requires complex and technological design, the use of special materials and attention to the smallest details. Moreover the used materials include hardly any wood. discover the advantages of the Anvera construction method Anvera is built using unidirectional or multiaxial carbon, very thick high-density PVC, and epoxy resin. All these materials are strong, as well as having high resistance to stress and impact.

The ANVERA 55S is unlike any other boat on the water featuring an almost entirely open deck with a social area in the center that exudes a high-tech, minimalist look. At the stern, the side wings fold out and downward to create a 200-square-foot open space at the rear of the cockpit—accommodating loungers for six and a platform for water sports. A custom cover fits overhead to provide shade. At the bow there are two more sunbeds and yet more open-deck space. In the center, eight to 10 people can drink and dine at the table and lounges.

Stainless-steel trim and cleats, flawless use of teak, and carbon-fiber components give the craft yacht-grade quality while the two-stateroom interior retains the same simple beauty as the rest of the yacht.

Inside, there is a beautifully appointed cabin with full queen berth flanked by comfortable couches, large panoramic windows, a head with full standup shower to port, and a full galley setup to stbd. Another 2 berths are located midship for a total of 4 guests to sleep aboard.

Engine options:

55 Standard: 2 x Cummins 550hp Engines

55 S: 2 x Caterpillar 650hp Engines.

American Package Models will include 110V, and Super Tropical Air conditioning. The RIB color can also be customized between over 20 different fun options!
