SPECIFICATIONS

Overview

The Akhir 118' series presents a range of motor yachts built with a composite hull and superstructure by Cantieri de Pisa. Naval architecture is the work of Cantieri di Pisa while exterior design is from the sketch book of Carlo Galeazzi who was given the task of refreshing the entire Akhir range.

The interior layout features a configuration of owner's suite, twin guest cabin and two VIP suites on the lower deck; a large two-section salon, dining room, crew galley and stairway down to three crew cabins are on the main deck; and a pair of sunpads, kitchen, lounge area and cockpit make up the fly deck.

The vessel has a cruising speed of 12 knots and can reach a maximum speed of 27 knots. A range of 2120 nautical miles is possible when cruising at 12 knots. The super yacht is powered by twin 2400 HP MTU 16V 2,000 M93 engines.
