## Overview

---

The majestic spearhead is impossible to ignore; so easy to desire. The very name of the 100' Corsaro hints at a daring and powerful buccaneer, full of the pioneering promise of its predecessors, to the joy and passion of yacht owners and enthusiasts.

It is difficult to ignore the design paternity of this new 29.9 metre Riva. The Italian shipyard worked closely with Officina Italiana Design, the studio founded by Mauro Micheli and Sergio Beretta.

A quick glance reveals the many features that immediately remain impressed in your mind, starting with the massive amount of space, including a huge private area for the owner on the main deck with a wide body master suite, as well as four suites below deck, and a generous totally customisable sundeck. The large, attractive windows stretch along the hull and superstructure, giving this yacht unforgettable impact and offering wide-angle panoramic views from inside.
